RFD# 2025-04-002

**Topic: Policy # ADM-003 Complaints Policy** 

**Motion 1:** That the Board approve Complaints Policy # ADM-003 and ADM 003 Appendix A as presented.

Motion 2: That the Board rescind Policy # 42.0 Complaints Policy

**Discussion:** BESC has a culture of openness and empathy towards those that work in our system. We present Policy #ADM-003 for your approval, we anticipate these changes will enhance the confidence our members have in the process".

#### **Alternatives:**

- 1. The board may accept the recommendation.
- 2. The board may reject the recommendation.

If the complaint was addressed to the board or relates to a governance issue the REM or board chair will provide a written report to the board prior to advising the complainant of the investigation outcome.

Chairperson Gene Hrabec Beaver Emergency Services Commission PO Box 449 Viking T0B 4N0

Dear Chairperson Hrabec:

Thank you for submitting your municipality's grant application under the 2025 Fire Services Training Program. I am pleased to inform you that Beaver Emergency Services Commission has been approved for a grant of \$17,850.00 to carry out training as outlined in the forthcoming conditional grant agreement.

Through the Fire Services Training Program (FSTP), the Government of Alberta provides \$500,000 amongst eligible fire departments to offset the cost of training their members. However, in response to feedback gathered during the 2024 Fire Services Review, the Government of Alberta has increased the FSTP funding to \$1,000,000 for the 2024/25 fiscal year.

The conditional grant agreement will be sent separately to your Chief Administrative Officer to obtain the appropriate signatures. Once the conditional grant agreement has been signed by Municipal Affairs, the grant funds will be distributed, and a final signed copy of the conditional grant agreement will be emailed to your municipality for your records.

Municipal Affairs will be working with the FSTP Working Group to review the grant evaluation criteria and approval process for potential enhancements in future years. If you have any questions regarding the grant process or the conditional grant agreement, please contact the Grants Coordinator at 1-866-421-6929, or firecomm@gov.ab.ca.

Thank you for your important work and dedication to the safety of individuals in your community.

Sincerely,

Ric M C/V/

When submitting mileage allowance for vehicle travel, the mileage allowance rate used by the travelling party's employer will be honored. If a mileage rate is not listed by the travelling party, then the Government of Alberta's mileage rate will be applied.

When claiming fuel as an eligible expense, the fuel must be deemed reasonable for Project delivery, in the sole discretion of the Minister, and the expense must have been incurred by the travelling party. Fuel receipts and invoices are eligible supporting documents for submission in lieu of mileage reporting.

#### Meal Allowance

When submitting meal expenses, the following applies:

- An individual may claim the actual expense of a meal, or claim a meal allowance, but cannot claim both.
- A meal expense to be claimed is the amount shown on the receipt, excluding any ineligible expenses, plus a gratuity of up to a maximum of 20 percent.
- Meals provided by an event or place of accommodation are not eligible for reimbursement, unless supported with receipts and rationale.

#### Ineligible Expenses

The following expenses will not be reimbursed:

Alcohol

- Tobacco
- Goods or Services that do not meet objectives described in Schedule A, in the sole discretion of the Minister.
- Stipends that align with the Recipient's standard operations.
- Training that is provided free of charge by AEMA.
- Gift cards unless the card is being purchased for a specific project-related purpose (e.g., a raffle prize).

#### Reporting

- A vendor's receipt or invoice is required to verify Eligible Expenses, and should include the following information:
  - o Business name

o Description of goods / services

o Invoice date

- Quantity of good / services
- Invoice or document ID number
- o Total amount due

o Client name

- o Taxes
- Debit and credit chits or credit card statements will not be accepted as proof of expenditure on their own unless these are accompanied by other supporting documentation. This applies in cases where there is insufficient information within the receipt or invoice (e.g., a gratuity).

#### GST, PST, Levies, and Fees

- If applicable, GST must explicitly be shown on the receipt or invoice. If GST is not explicitly shown on the receipt or invoice, it should not be reported.
- Provincial Sales Tax (PST), levies, and fees are considered eligible expenses.

To Whom it may Concern:

As we approach the start of the 2025 wildfire season in Alberta, I am reaching out to you directly to share a new wildfire preparedness initiative the Government of Alberta is implementing.

We are introducing a new reporting tool to collect wildfire data outside of the Forest Protection Area, to enhance the province's emergency response and support the Emergency Statutes Amendment Act.

This wildfire reporting tool will contribute to resource planning and help us better understand the wildfire situation across the entire province. Even though fighting wildfires is a shared responsibility between the province and municipalities, we know that wildfires can happen anywhere, and we want all communities represented when it comes to wildfire response.

This easy-to-use tool will contribute to the planning and deployment of resources for wildfire response, while effectively sharing information about wildfires between jurisdictions. This will also provide valuable data for municipalities on wildfires within their boundaries which could help improve wildfire prevention, obtain FireSmart funding or provide rationale for additional resources.

By creating a central place to store this information, we are building a dataset that allows for a more collaborative approach to wildfire response in Alberta. Every municipality will be issued user access to contribute their own data. Your participation will be key to the success of this initiative. We ask that municipalities report any wildfire incidents in a timely manner. Training on how to use the tool will be provided to users soon and support will be available through your local Alberta Wildfire Prevention Officer.

I encourage you to have a conversation with your fire departments to inform them of the importance of this wildfire reporting tool so we can all work more effectively in the face of an emergency such as wildfire.

Classification: Protected A

Implementing a new system is never easy and I know we all have many demands for our time, particularly during an emergency. Despite these challenges, this new tool is an important step towards a more wildfire resilient and responsive province.

If you have questions about the reporting tool, please reach out to your nearest Wildfire Prevention Officer. Our priority is working collaboratively with our partners to keep Albertans and our communities safe this wildfire season. Our Wildfire Prevention Officers will be providing detailed information and training to your staff in the coming weeks.

Sincerely,

Daniel Lux

## Approval of Streetlight Installation in Kinsella

Dear Residents of Kinsella,

We are pleased to inform you that County Council has approved the installation of additional streetlights in the Hamlet of Kinsella. This decision follows community concerns about safety and visibility, as well as strong support expressed through the community petition submitted on August 27, 2024.

In addition, the Viking RCMP also provided a letter of support, highlighting the need to improve visibility to aid in crime prevention and investigations. Subsequently, Administration has been working with Fortis Alberta to assess feasibility and identify priority areas for installation.

A plan was finalized to install five new streetlights in key locations. Fortis has committed to contributing \$17,090 towards the project. Beaver County will contribute \$21,200 for a total cost of approximately \$38,290.

New streetlights will be installed at the following locations:

- Two on the north side of Queen Street
- Two on 3rd Avenue between Main and King Streets
- One additional light on Mainstreet

These locations were selected based on traffic flow, visibility, and community feedback. The ongoing operational cost for these lights will be approximately \$146.40 per month, in addition to the ongoing operational costs for existing streetlights. Fortis will begin construction in the next coming months, with completion expected later this year so residents may notice construction activity in the area.

Beaver County is committed to improving safety. I would like to thank the community for voicing your concerns, our infrastructure team for the hours of hard work, and Fortis Alberta as our industry partner for their contribution and collaboration on this project. If you have any questions, please contact the Dan Blackie, General Manger of Infrastructure at 825-385-0050.

Sincerely,

Kayleena Spiess Kayleena Spiess
